

ANTHONY TANG

Chicago, IL 60611 | 561-563-3369 | tangziyue1998@gmail.com

PROFESSIONAL SUMMARY

Commercial analytics and international trade professional with experience supporting more than \$1M in cross-border physical commodity transactions between U.S. suppliers and Asian buyers. Data analyst and strategist with 3+ years designing self-service reporting infrastructure, SQL data models, and automated analytics workflows at Big 4 and mid-market firms. Proven track record building 30+ Power BI dashboards, establishing KPI governance standards, and translating complex datasets into actionable insights for cross-functional stakeholders.

PROFESSIONAL EXPERIENCE

Aprio LLC | Chicago, IL

May 2025 – Present

Data Analyst

- Engineered nested, optimized **SQL data models** across Azure / Databricks / SQL Server, enabling efficient CY vs. PY historical comparisons and trend analysis to support firm-wide performance reviews.
- Built scalable **MDM normalization pipelines** — text standardization, suffix removal, formatting rules — establishing data governance practices that improved data trust and consistency across reporting systems.
- Deployed **Ridge Regression predictive models** to forecast WIP engagement hours ($R^2 \sim 0.88$) and architected reusable scikit-learn ML pipelines, improving resource planning accuracy and enabling self-service modeling for non-technical stakeholders.

Independent International Commodity Consultant | Chicago, IL

May 2024 – Present

Part-Time

- Supported more than \$2M in cross-border hardwood log transactions connecting U.S. suppliers with buyers in China, Singapore, and Vietnam.
- Coordinated suppliers, freight forwarders, and overseas buyers through order execution, including invoices, bills of lading, shipment amendments, container planning, and discrepancy resolution
- Analyzed grade mix, board-foot volume, supplier pricing, freight, fumigation, rail, and ocean costs to evaluate transaction economics and support commercial negotiations.

RSM US LLP | Chicago, IL

February 2024 – April 2025

Data Analyst

- Designed and maintained **30+ Power BI dashboards** with advanced DAX data models for daily financial and operational reporting, driving a **10% improvement in budget allocation accuracy** across Alliance member firms.
- Established **data definitions, KPI standards, and reporting governance** across cross-functional teams, ensuring accuracy and consistency in all analytics outputs.
- Extracted and analyzed large datasets from **Azure KQL, SQL databases, and Qualtrics** using Python (Pandas, NumPy), surfacing revenue trends and anomalies to support senior leadership strategic decisions.

enVista | Carmel, IN

June 2023 – February 2024

Planning Strategy Consultant

- Leveraged advanced **SQL in Alteryx** for multi-dimensional product flow analysis across supply chain data, elevating client service level to **95%** through data-driven infrastructure improvements.
- Deployed **Python time-series ML forecasting** with Think-cell visualizations in cross-functional collaboration, achieving a **13% uplift in supply chain efficiency** by translating complex datasets into actionable planning strategies.

Accenture | West Lafayette, IN

January – May 2023

Part-Time Data Scientist

- Applied **NLP/ML techniques** (pandas, TensorFlow, word2vec) to map supply chain networks; built n-tier supplier map identifying 5,000+ suppliers, reducing risk exposure and informing strategic sourcing decisions.

Independent International Commodity Trader

EDUCATION

Purdue University, Krannert School of Management

West Lafayette, IN

M.S. Business Analytics & Information Management | May 2023

B.S. Supply Chain Information & Analytics | May 2022
